

## Upper Body and Core Home Workout

**Warm-up:** 10 minutes stair running, jog around outside of house, or jump rope. Dynamic stretches – prisoner walks, zombies, inch worms.

**Notes:** Beginners do 2 sets of all exercises instead of 3. If you have weights, add them to the exercises. If you have dumbbells, use them for the upper body exercises, if not, use soup cans, water bottles, or put books in a pillow case, and use that as your weight!
